Project Report

The complete story of building the Invest Nova LG corporate website and brand system — from concept to Vercel production deployment.

• WHAT WAS BUILT

Website & Brand System Development

The project was built from scratch: from naming and brand concept through to a fully functional Next.js website featuring four interactive tools and seven-language support.

PAGES DEVELOPED

5

Landing + 4 tool pages

INTERFACE LANGUAGES

7

EN · DE · FR · RU · AR · HI · ZH

TRANSLATION KEYS

300+

Centralised i18n.ts file

LINES OF CODE

~5 000

TypeScript · CSS · HTML

PHASE 01

Concept & Brand Strategy

Building the semantic foundation of the company — before any visual work began.

- ✓ Developed the name **Invest Nova LG** and brand logic
- ✓ Positioning: European IT company delivering digital solutions for business
- ✓ Formulated mission, vision and five core company values
- ✓ Defined brand voice & tone (4 principles with examples)
- ✓ Target audience analysis and market positioning (UK/EU)

PHASE 02

Brandbook — Full Brand System

Designed and implemented as a dedicated website page /brandbook. Bilingual: RU + EN.

BRANDBOOK SECTION	CONTENT
Identity	Name logic, LG suffix, brand essence
Mission / Vision	Full articulated statements
Values	5 value cards with descriptions
Logo	Usage rules, clear space, 6 prohibited variants
Colour Palette	8 colours with HEX + RGB + CSS variables, copy-to-clipboard
Typography	6-level type scale with live previews
Iconography	Style, principles, icon examples
Motion	4 animation principles with technical parameters
Brand Voice	4 principles + right/wrong example pairs
Downloads	Brand file section: PDF, Figma, PNG

PHASE 03

Website Development — 5 Pages

Landing page /

- ✓ Hero section with animated gradient and blur orb effects
- ✓ Services block (6 cards)
- ✓ Cases / portfolio section
- ✓ About the company block
- ✓ CTA and contact form

Cost Calculator /calc

- ✓ Multi-step interactive wizard (7 categories)
- ✓ Project type → features → scale → design → platform → timeline → support
- ✓ Live price counter updating in real time
- ✓ Result screen with detailed cost breakdown
- ✓ Currency £ (en-GB), animated price increment

Client Brief /brief

- ✓ 7-step form: company → type → style → audience → budget → timeline → contacts
- ✓ Style tags (8) and audience tags (6), multi-select

- ✓ Unique brief number with date
- ✓ Confirmation result screen with summary

Project Tracker /tracker

- ✓ Coming Soon page with notification sign-up form
- ✓ Full UI mockup: sidebar, sprint progress, milestone cards, update feed
- ✓ 6 feature cards showcasing future tracker capabilities

PHASE 04

Internationalisation — 7 Languages

- ✓ Centralised i18n.ts file with 300+ translation keys
- ✓ Language switcher in the header of all tool pages
- ✓ All 4 tool pages fully translated into all 7 languages
- ✓ RTL support for Arabic
- ✓ Brandbook: fully translated in RU and EN; all other languages → EN

PHASE 05

Deployment & Infrastructure

- ✓ GitHub repository (IVM-ivia/nova)
- ✓ CI/CD via Vercel — automatic deployment on every push to main
- ✓ Production: nova-coral-two.vercel.app
- ✓ TypeScript: 0 compilation errors

COST OF DEVELOPMENT

Project Cost Assessment

Market rates for the United Kingdom / Western Europe. Team: 2 specialists. The project was delivered without agency overhead, resulting in highly efficient pricing.

PROJECT MANAGER

€88

Per hour · Ilya (PM + Creative Director)

DEVELOPER

€76

Per hour · Senior Next.js / TypeScript

Ilya — PM & Creative Direction

TASK	HOURS	AMOUNT
Concept, positioning, brand platform	10 h	€880
Brandbook content (all copy, structure)	18 h	€1 584
Site architecture, UX logic	8 h	€704
Page content (copy, UX writing)	12 h	€1 056
i18n — briefing, translation oversight	8 h	€704
QA, revisions, iterations	14 h	€1 232
Project coordination & communication	8 h	€704
Subtotal · Ilya	78 h	€6 864

Developer — Frontend / Full-stack

TASK	HOURS	AMOUNT
Next.js project setup, configuration, architecture	5 h	€380
Design system: CSS variables, typography, animations	14 h	€1 064
Components: TopNav, BlurOrbs, layout	5 h	€380
Landing page /	16 h	€1 216
Brandbook page /brandbook	14 h	€1 064
Calculator /calc	14 h	€1 064
Brief wizard /brief	14 h	€1 064
Tracker /tracker	8 h	€608
i18n system (300+ keys, 7 languages)	14 h	€1 064
CSS polish, bug fixing	8 h	€608
Vercel deployment, CI/CD	3 h	€228
Subtotal · Developer	115 h	€8 740

TOTAL PROJECT COST

€15 604

78 h (PM) + 115 h (Dev) = 193 hours total · Market estimate: €14 000 – €16 000

Market Comparison · UK / EU

COMPONENT	UK/EU MARKET	OUR COST
Next.js website — 5 pages	€6 000 – €9 000	€15 604
3 interactive modules (calc, brief, tracker)	€4 000 – €6 000	
Brandbook as a page	€2 000 – €3 000	
i18n — 7 languages	€2 000 – €3 000	
PM / Creative Direction	€5 000 – €8 000	
Total market range	€19 000 – €29 000	€15 604

SAVINGS VS. MARKET RATE

~~~€~~**€7 000** – **€13 000**

Result of an efficient two-person team with zero agency overhead
